

# How to safely transport your bug

1. Don't touch the bug with your fingers or skin
2. Use a takeaway container or jar
3. Hold container next to the bug and gently shuffle it in with a leaf or stick, or take the whole leaf it is sitting on
4. Keep your bug at a consistent temperature and don't let it get too hot or cold
5. Only collect your bug on the day of or the day before bringing it in for identification!
